1. How much do you value your privacy? Where do you like to go when you want to be alone?
2. Do you think people have the right to privacy? How about convicted criminals? The only people who need privacy are people who are doing something illegal. Do you agree or disagree? Why?
3. How private should corporations be? Should the public have access to corporate records?
4. How is privacy viewed in your culture? Should there be more, or less, security cameras around cities?
5. Do you think the Internet increases privacy or takes away privacy? Do you think that social networking websites take away too much of your privacy?
6. What is the greatest threat to privacy?
